Hi and Welcome to Spring Woods High School TIGER TV
I am Allison Campos and with me is Corey Kinser
Today we have very special guests in our studio, the lucky and hard working students that traveled half way around the world to the Flat Classroom Conference this past January.

CAMERA on Corey

What a fabulous opportunity to be able to attend a conference that was held in a country like, Doha, Qatar!

We would like to welcome Erika Bautista, Karla Nave, Steve Ramos. These three students along with Mrs Cuellar and Mr Hernandez got the chance of a life time, to be a part of a global collaborative project using Web 2.0 tools to foster communication, collaboration, creativity and understanding around the world.

One of the main goals of the project was to “flatten” or lower the classroom walls so that instead of each class working isolated and alone, two or more classes are joined virtually to become one large classroom. This was done through the Internet using Web 2.0 tools such as Wikispace and Ning.

First let's give you a pictorial background about the conference that Erika, Karla and Steve attended. The following video clip was prepared by our talented editor Christian Arredondo.

ROLL CLIP

Okay guys just how long did it take to travel to Quatar? And ... what was the most interesting part of the trip for you.

Now we would like to show you another short video clip prepared by myself and Mike Ramirez.

ROLL CLIP

CAMERA on Allie

Thank you Corey and Mike _ Erika would you tell us what a Wikispace is and just what is a Ning?

CAMERA on Guest

Erika answers

CAMERA on Allie

Karla, Tell us about the Conference purpose and its highlights?

CAMERA on Guest

Karla Answers

Steve, would you tell us how you got the opportunity to go to such a fantastic conference. And tell us the most important thing your learned?

CAMERA on Guest

Steve talks and gives statement about judging people only after they are known and based on their own merits.....

We know that Doha is an amazing and entertaining city in Qatar. And from a little research I have found out that the nightlife in Doha is pretty busy with only four nightclubs in the area they are always packed.

It seems that there is always good food to reboot your energy level and there are fabulous restaurants located in the big hotels. Or as I also found out, for a different taste you can go to Oriental restaurants in the "booming" city of Qatar.

And unlike Houston, in Doha they said the shopping malls are limited. There are only 2 or 3 places to do your shopping.

And finally, I read that Doha is not only they city of great tanning weather because it is sunny all the time, but it is known as the area devoted to research and education and head quarters of the largest oil and gas companies.

*Andwhat we are really curious about is _
What do Teenagers in Qatar do on weekends?*

Each guest gives an answer

Thank you, it sounds like all of us all over the world, have some of the same things in common

Congratulations _ Erika, Karla, Steve,..... and all of Mrs Cuellar's students connected with this project.

Spring Woods is a district leader in technology use and as we have seen today students are the reason for our success.... and as Steve pointed out to us, judge people by their own merits and try to understand the other persons perspective.

John Lennon & Paul McCartney of the Beatles said it best: in their song_

Try to see it my way, only time will tell if I'm right or if I am wrong.

While you see it your way,

There's a chance that we may fall apart before too long.

We can work it out. We can work it out.

and now for a video summary of the Flatclassroom Adventure prepared by our Director Jonathan Chung
